

Buying StarTools

Join the thousands of amateurs, enthusiasts, schools, observatories and institutions already using StarTools!

Pricing

A StarTools license is currently priced at an affordable **69 AUD** (~ **45-55 USD**, **45-50 EUR**, or **35-45 GBP**, depending on prevailing ForEx rates). A 20% discount applies for group buys of 5 licenses or more.

What you get

Your license is yours to keep forever. It will never expire and entitles you to all updates released within 2 years of the purchase date. You do not need an Internet connection and you are free to install StarTools on as many systems as you like, provided you own those systems and are an individual. If you are any other entity (business, organization, club, etc.), please contact us. Please see the EULA included in the download for further details. We're not a fan of heavy handed DRM systems, complicated activation procedures or "renters" licenses. We trust our users to do the right thing – your license key uniquely identifies you and that's good enough for us.

Please try before you buy

Please use the FREE trial version before you buy. It offers full functionality, with the exception of being able to save your work. This way you can be sure StarTools performs adequately on your system and suits your needs.

We're not in it for the money

StarTools aims to be as affordable as it is powerful. The StarTools project is about enabling astrophotography for as many people as possible, no matter how limited or advanced their means and equipment - we just try to cover our costs. If the pricing is an issue for you (self supported student, minor, pensioner, veteran, hard times, COVID-19 related income difficulties, etc.), contact us and we'll try to work something out; we understand - we've been there. No need for cracks, keygens, etc.

Processing your order

Please allow 48 hours for us to process your order as we manually generate the keys from your billing details and e-mail them to you as an attachment via your nominated PayPal e-mail address. Please make sure the e-mail address you have nominated for PayPal transactions is correct.

Please make sure your e-mail inbox is not full. If, despite repeated efforts, our e-mail with the license key attachment cannot be delivered,

the full amount will be refunded. If we have not responded within 48 hours af

Renewal

Thank you for considering renewal of your StarTools update entitlement license!

Your continued support helps us improve StarTools with new tools and new algorithms, opening up your (and our!) wonderful hobby to more people around the world, regardless of their means.

Pricing

A StarTools license renewal is currently priced at **29 AUD** (approximately **20 USD**, **18 EUR**, or **17 GBP**).

Issuance

Renewals are checked against previous purchases. If your previous purchase cannot be found, renewal will fail and your renewal purchase will be refunded.

Contact us

Please do contact us if you have special requirements, or if the pricing is an issue for you.

Purchasing without PayPal

We use PayPal as it automatically provides the verified details we require for license generation. However we understand not everyone has (or wants) a PayPal account.

An international bank transfer is also possible, for example through

Transferwise. Please contact us if you wish to avail of this option, as the details you need may vary by bank.
